EDUCATION

- **DIT University, Dehradun**
  - *Bachelor Of Technology in Computer Science and Engineering* *2023 - 2027*
- **City Montessori School, Lucknow**
  - *Intermediate Indian school certificate (I.S.C.)* *2020 - 2022*
  - *Indian certificate for secondary education (I.C.S.E.)* *2018 - 2020*

WORK EXPERIENCE

- **GirlScript Summer of Code (GSSoC)**
  Open Source Contributor
  - *Fixed bugs and implemented features in open-source repositories using version control and collaborative workflows.*
  - *Actively participated in code reviews, followed clean code best practices, and collaborated with distributed teams to deliver contributions on time.*
- **Hacktoberfest 2024**
  Open Source Contributor
  - *Successfully completed 4+ open-source contributions, resolving issues and improving code/documentation across multiple repositories.*
  - *Collaborated with the open-source community using Git, GitHub pull requests, and issue tracking while following contribution guidelines and best practices.*

PROJECTS

- **ChainSmart – E-Commerce Platform (HTML, CSS, JavaScript)**
  - *Developed a multi-page ESG-focused e-commerce application featuring user onboarding, product management, ESG scoring, and sustainability rewards.*
  - *Designed a reusable global design system with responsive layouts, animations, and consistent UI components, improving maintainability and scalability across multiple pages.*
  - *Implemented dynamic client-side logic for real-time ESG calculations, interactive dashboards, form validation, and enhanced user engagement.*
- **SkyCast (HTML, CSS, JavaScript, OpenWeather API)**
  - *Built a scalable, user-friendly weather application supporting real-time location-based and city based forecasts.*
  - *Optimized UI behavior through efficient state handling, dynamic content rendering, and structured user interactions.*
  - *Strengthened reliability by implementing robust validation and graceful error handling for invalid inputs and failed requests.*

TECHNICAL SKILLS

- **Relevant Coursework:** *Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks.*
- **Languages:** *Java, Python, JavaScript, C programming, R programming.*
- **Frontend:** *React, HTML, CSS, Tailwind.*
- **Backend & APIs:** *REST APIs, API Integration, JSON.*
- **Tools & Platform:** *Git, GitHub, GitLab (Version Control), VS Code.*
- **Databases & Cloud:** *MongoDB, SQL.*
- **Operating Systems:** *Linux, Windows.*
- **Other:** *Competitive Programming, APIs, Leadership.*

CERTIFICATES

- **Gen AI & Cloud Computing Foundations:** AI Basics, Cloud Concepts.
- **Core Java:** OOPs, Collections, Exception Handling.
- **Linux Fundamentals:** CLI, File System, Permissions.
- **Database Management Essentials:** SQL, Normalization.
